Our DEMLR Weekly update to follow-up on our previous Atlantic Coast Pipeline Project update from earlier this week is that our Fayetteville Regional Office has completed their review of the second revised plan for the portion of the Erosion and Sediment Control Plan within the Fayetteville Region and has drafted the attached Letter of Approval with Modifications. The FRO must complete final action on this review no later than 12/5/17.

The Raleigh Regional Office has not yet received the revised plan from their previous Disapproval and has no new action to take at this time. The Central Office SW staff are still awaiting information from their previous ADI letter.

Let me know if you have any questions.

William E. Toby Vinson, Jr., PE, CPESC, CPM
